

Junior Land Surveyor February 2023

Shipston-on-Stour, Warwickshire.

Storm Geomatics Limited is a specialist survey company that concentrates its resources in surveying for flood risk mapping and modelling and nature regeneration projects. Our company has built a reputation amongst consulting engineers as being one of the leaders in the capture of geo-referenced data for river and flood plain modelling, still water surveys, environmental surveys and water-based construction. Storm Geomatics are scaling up their resources to meet the current high demand of environmental projects that are being offered.

The career.

You will be reporting to a surveyor who will give you training on the job which will eventually progress you to surveyor level. Professional qualifications within the Chartered Institution of Civil Engineering Surveyors are also attainable on a company scheme. The work will give you an opportunity to travel all over the UK and the type of projects you will be involved in are as follows:

- River Surveys
- Still Water Surveys
- Near Shore Surveys
- Setting Out
- Topographic Surveys
- River Condition Surveys

The successful applicant would ideally need the following skills and attributes.

Have at least one year experience surveying with a geospatial surveying company.

Hardy outdoor type.

Physically fit.

A real team player with aspirations to grow within the company.

Understanding technology and computers

Be able to work away from home and occasionally at weekends.

Hold a full, clean driving licence.

To be based within easy reach of our office at Shipston-on-Stour, Warwickshire..

Be able to speak fluent English.

Be able to swim.

Be able to work on your own initiative.

You will receive fully paid overtime, overnight inconvenience benefits, company bonus scheme and the chance to progress your career within the company.

Please email your CV and cover letter to mike.hopkins@storm-geomatics.com by 10th March 2023.
